HERE'S the POINT

By SPENCE HELD

"Ocean Beach remembers when you pitched for Point Loma High. We are proud of you. Hearty congratulations."

That telegram was sent to Don Larsen by Bill Knopp, president of the O. B. Chamber of Commerce, after Larsen pitched his incredible "perfect game" in the World Series Monday.

Business was almost suspended in Ocean Beach, where the Larsen family used to live, during his startling stint on the mound . . . Hundreds of people remembered him as a basketball and baseball star at Point Loma along about 1947.

Jack Dawson, recreation leader at O. B. Community Center, remembered him as a member of the Post 504 American Legion junior baseball team which won the 5th area title in 1946 . . . Dawson coached that team.

* * *

I slunk out of Balboa Stadium Friday night with the traitorous intention of panning the Point Loma High football team.

Having sat through the dismal 40-0 loss to San Diego High, I was going to point out that the smaller, faster, darker, hungrier boys from across the tracks played football like they enjoyed it.

I fully intended to say that the Lomans looked big, slow and sluggish; that they blocked and tackled half-heartedly, as if the price of a few bumps and bruises was too high to pay for victory.

Well, Pollyanna prevailed in time to prevent any such outburst . . . Besides, I wouldn't want to make the boys mad and have them take it out on poor little La Jolla Friday.

La Jolla had only 18 boys in uniform at the recent Carnival. Their platoon looked pitiful alongside the battalions boasted by Point Loma, Hoover, etc.

* * *

Oh, yeah, and when we crept out of the crypt, I mean the west gate of the stadium Friday night, we were confronted by a gang of about 30 Negro boys.

(This same lineup, thrown across the road facing the gate, was there after the Carnival, when Point Loma also engaged San Diego.)

The gang obviously was looking for a fight, perhaps with a jacket club or anybody from the Point who looked cross-eyed at 'em. Me, I didn't feel very tough and was glad I'd left my coonskin coat and pennant at home.

If challenged, I'd have said: "Hey, I'm a San Diego High boy myself!"

CWU Plans Drive For $1,500,000

Funds for urgently needed expansion will be sought by California Western University in a capital campaign to be launched before the end of the year.

Adm. Frederick C. Sherman, USN Ret., chairman of the Board of Trustees, and Dr. William C. Rust, president, announced that $1,500,000 has been set as the goal for the campaign to finance improvements in present buildings and construction of new buildings to meet the requirements for the expanding student body.

Plans for development of the 120-acre campus include a new library, a School of Religion building, two new classroom buildings, dormitory facilities, athletic facilities, and general landscaping of the campus.

Present enrollment is 340 full and part time students, with a full and part time faculty of 31, compared with 1952 when the University had six part time faculty members and 72 students.

Since that time, the University has become affiliated with the Methodist Church, and is now fully accredited by the Western College Association.

Sportfishermen Employ Squid As Bait For Yellows

Hitherto ignored, the lowly squid came into its own on the San Diego deep sea fishing front this week when anglers found that the yellowtail at the Coronado Islands were feeding on them almost exclusively and catches were boosted materially by their use as bait.

Credit for the weekly high take of 2251 yellows was laid almost directly at the door of the squid, and catches fell off last week end when procurement became difficult, due mainly to weather conditions.

At the same time, mixed schools of tuna—albacore, bluefin tuna, and skipjack—turned up within one hour of the Islands and sportfishing boats made good catches last weekend to take up the yellowtail slack.

Marlin fishermen also had their innings and ran the seasonal catch to within a few fish of the 300 mark with a catch of 22 last Saturday.

At the same time, a few boats sounded out the possibilities of bottom fishing and returned with excellent catches of rock cod, grouper, and ling cod.

Stevenson To Speak In S. D. Friday; O. B. Republican Women Meet Oct. 17

With the World Series ending yesterday, politics was expected to attract more attention in the Peninsula area during the rest of the week.

The Eisenhower-Nixon bandwagon went through Ocean Beach Tuesday morning during a Series game, when many people were concentrating on baseball.

Adlai Stevenson, Democratic candidate for President, will speak at a big Democratic rally in Balboa Park Bowl tomorrow (Friday, Oct. 12.) He is due to arrive in San Diego about 7 p.m., and probably will speak about 9 o'clock.

The rally is set for 7:30 p.m. Myron Lustig of Point Loma is chairman of the program committee, and Mrs. Sylvia Haffner, another local resident, is on the reception committee.

On Wednesday, Oct. 17 at 1 p.m., the Ocean Beach Republican Women's Club will meet at the O. B. Woman's Clubhouse, Muir and Bacon Sts. Republican candidates will be introduced, and ballot propositions explained. A coffee hour will follow. The public is invited.

Cabrillo National Monument Here Celebrates 43rd Birthday Oct. 14

Forty-three years ago on Oct. 14, 1913, President Woodrow Wilson by presidential proclamation created Cabrillo National Monument. This half-acre site commemorates the landing of Juan Rodriguez Cabrillo in 1542 on what is now Point Loma.

For years the "Old Lighthouse" was the only structure in the area. In 1938 the memorial plaque telling the story of Cabrillo's voyage was erected and dedicated on the monument grounds. The statue of Cabrillo, by one of Portugal's distinguished sculptors, Alvaro de Bree, was placed and dedicated on Sept. 28, 1949.

Situated high atop Point Loma, Cabrillo National Monument commands a view of one of the world's great seascapes which encompasses the ocean, bays, islands, cities, mesas, valleys, and mountains.

In the last three years Cabrillo National Monument has become the most visited national monument in the United States. Last year it was visited by 882,176 persons; this was 170,000 more than the Statue of Liberty had for the same year.

Dewey District Hits 100 Percent Of Quota In United Success Drive

Contributions in the Geographic (residential) Division of the 1956 United Success Drive mounted as a campaign district here went over the top.

The current campaign to raise operating funds for 90 Red Feather services in six Community Chests in the county, Tuesday reached $1,083,881 for 47 percent of the $2,306,000 goal.

Returns from the Ocean Beach-Point Loma area rose to $8,264 for 30.9 percent of the $26,702 quota as Dewey District under the direction of Mrs .Chester Dorman reported 100 per cent of its quota, This is the first district here to go over the top.

Mrs. Percy A. Rooks, area chairman said that campaigners began second week of house to house campaigning with renewed vigor. "Every effort is being made for this area to be first in reporting 100 per cent of our quota in the city," she said.

Jack Thompson, Jr., chairman of the $2,306,000 drive, urged all householders in the Ocean Beach-Point Loma area to "Open your door wide when the campaigner calls on you, listen to the story of miracles, and then pledge your fair share to continue these miracles."

'First Priority' Asked For Ocean Beach Park

Request that the City Council "reinstate the improvement of the Ocean Beach Park as an item of first priority" was made this week by the O. B. Chamber of Commerce in a letter signed by H. J. La Dou. The letter is as follows:

"The Beach Improvement Committee, of which I am chairman for the Ocean Beach Chamber of Commerce, was most distressed to learn that the plans for the improvement of the Ocean Beach Park were completely ignored in the appropriation of funds for capital improvements by the Park and Recreation Department.

"Our dismay was compounded by the fact that we had been given assurance at a meeting in 1955 with Mr. Leo Calland that the improvement of our beach was of first priority.

"We have also been given information by various city officials that the proceeds from the sale of Collier Park to the Board of Education may be used for the development and improvement of the the athletic field adjacent to the flood control channel.

"Please be advised that the Ocean Beach Chamber of Commerce is opposed to the allocation of the Collier Park funds to the improvement of this athletic field. Our reason for this opposition is two-fold:

"First, when the proposition was placed on the ballot, it was the general understanding of the residents of this area that any proceeds from the sale of Collier Park would be applied to the improvement of the beach.

"Second, a 5 million dollar bond issue for the improvement of Mission Bay was approved by the electorate at the same election and the funds from said bond issue were to be used for the improvement of Mission Bay, of which the athletic field is a part.

"We therefore request that the City Council reinstate the improvement of the Ocean Beach Park as an item of first priority among those projects of capital improvement by the Park and Recreation Department or Public Works Department. And secondly, that any proceeds from the sale of Collier Park be applied to this improvement, and not to the athletic field.

"The City Council should not lose sight of the fact that the Ocean Beach beach is the most centrally located beach in the city, and that it is utilized by all citizens of the city . . . The proposed improvement of this beach contemplates the acquisition of certain private parcels of land. Considerable building activity is taking place in this area, and unless this land is purchased within the near future, the cost will become prohibitive.

"Applying the Collier Park funds to the acquisition of such land would be a necessary first step in the improvement of this area, and would certainly enhance our application to the State for additional funds."

New Policy Set On 'Teentowners'

A new policy regarding the weekly Junior High "Teentowners" dances at the Ocean Beach Community Center, has been announced by Jack Dawson, recreation leader.

Parents are especially urged to acquaint themselves with the following changes: 8th and 9th grade dances will be held on the 1st and 3rd Thursdays of the month. Seven grade dances will be held on the 2nd and 4th Thursdays. If there is a 5th Thursday in the month, the dance will be open to all three grades.

Due to overcrowding, applications for dancing privileges will be with-held until vacancies occur. A waiting list is being kept in the office of the Community Center.

Point Loma High Plays L. J. Friday

Point Loma High School's football team is scheduled to play La Jolla High there tomorrow (Friday) at 8 p.m.

The locals were routed, 40 to 0, by San Diego High at Balboa Stadium last Friday night. San Diego's light, fast backs headed by Cleveland Jones, 145-pounder, scampered through the Pointers like jackrabbits for vast yardage.

Jones scored three touchdowns. His last one was an 80-yard dash through the line plus a cutback that left pursuers floundering in his wake.

There were a few bright spots for Point Loma. Tony Silva and Bill Moilanen looked good on defense at times, and Roger Sneed snared a pass on San Diego's 35-yard line in the fourth quarter.

Another Meeting On Library Set

At a recent meeting of the Peninsula Coordinating Council, the group voted unanimously to explore the possibilities of a new library somewhere in the Point Loma-Loma Portal area.

Since the meeting, President Richard F. Lustig has received many phone calls from interested PTA and other groups offering assistance in this project.

He announced that a special meeting of Peninsula Council will be held Oct. 29 at 7:30 p.m. in Dana Junior High School cafeteria with officials of the Library Committee to further discuss the problem. The public is invited.

HEALTH FOR ALL

There are an estimated two and one-half to three million alcoholics in this country—people who cannot control their drinking and whose indulgence in liquor is detrimental to their jobs, reputations ,or family lives, as well as their health.

Alcoholism is an illness like other physical and mental disorders—not a disgrace or crime as many still believe. Public enlightenment has removed false stigma from other real illnesses and the day may soon come when people realize that the alcoholic is not a criminal, but a genuinely ill person who needs medical care and intelligent aid.

One aim of current studies on alcoholism is to find out why some people can drink moderately and others cannot without risking the danger of alcoholism. It is believed that alsoholism has its roots in either physical or psychological factors, or both. Studies reveal that many victims of alcoholism have some personality disorder—inferiority complex, chronic anxiety, constant frustration, extreme boredom, or a tendency to dodge the responsibilities of life.

We have also reason to believe that excessive drinking may have a physical basis—that the chemical make-up of certain individuals gives them an abnormal susceptibility to liquor. It is hoped that some day a person can be warned of this susceptibility through a study of his body chemistry and take measures to ward off the heartache and suffering of alcoholism.

Whatever its cause or basis, alcoholism is best treated by a doctor or by a psychiatrist or other medical specialist whom the doctor may recommend. Amateur advice of amateur "psychiatrists" may make things worse for the alcoholic. Drugs recently developed for alcoholic treatment should not be taken unless under medical prescription and supervision.

Many alcoholics are also helped in arresting their drinking through the efforts of a group of humane and intelligent ex-alcoholics known as "Alcoholics Annonymous." Members of the association, which has the approval of many doctors, unselfishly lend every assistance to the person who seeks it, regardless of personal sacrifice.

The serious present-day problem of alcoholism will be solved through the tireless efforts of the medical world, lay organizations like the AA's, and scientists studying the emotional and physical aspects of the disorder. Meanwhile, public realization that the alcoholic is a sick person and not a criminal could do much to help those who cannot control their drinking.

GENERAL MANAGER, SAN DIEGO BETTER BUSINESS BUREAU

ITS YOUR BUSINESS . . . . .

In past columns we have been spotlighting the dishonest and disreputable merchant, who preys upon the public, offers unbelievable bargains, high-pressures you into buying. He employs sharp salesmen who peddle fancy talk with promises, prizes, bonuses and "last-chance" deals.

One of the many jobs of your San Diego Better Business Bureau is to protect the family paycheck from such unscrupulous dealers. They are a blight on every city, and no Bureau head will rest easily until every one is driven from town or padlocked for keeps.

• • •

But what of the honest, fair-dealing businessman in your area who sells his wares in quieter fashion? Chances are he is a long-time member of the community, one of the pillars of the church, whose children attend your schools. He supports worthwhile drives, donates merchandise, coaches the Little League and boosts service clubs to which he belongs.

He is interested, naturally, in improving business, but far more perhaps in building the community into a worthwhile place to live. These are no fly-by-nights, but businessmen made of sturdy stuff.

• • •

For their efforts, they have to contend with public whims and misunderstanding of basic business principles. They must condone customers who insist they have every right to "change their minds" and return unwanted merchandise. They even fall victims to petty theft

Sometimes the buyer expresses unwarranted dissatisfaction because he fails to understand that the seller has the privilege of selling a contract to a third party without informing the buyer. Nor does the buyer understand fully the difference between interest and finance charges.

• • •

Local firms maintain member-ship in your San Diego Better Business Bureau for your protection at no charge to the public. It is not a policing force, but it does help authorities to end bad business practices and comprehend culprits.

A series of helpful ten-cent Fact booklets, covering topics ranging from buying a car, buying or building a house or getting legal aid, is available to the public. For a free list of titles, write to your San Diego Better Business Bureau, Spreckels Bldg. Our telephone number is BE-3-7711. All complaints must be made in writing.

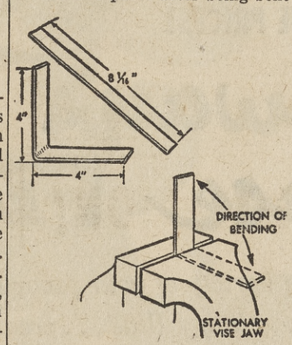
Handy Jim's FIXIN-UP TIPS For the Home

Making Right-Angle Bend in Bar Stock

THERE'S a trick in bending a metal round or flat bar to right angles, according to *Popular Mechanics*. It is to allow sufficient length in the piece to be bent. For example, if the length of the two parts after being bent



is 4" each, the overall length of the metal before being bent should be 8 1/16", because the bar is ⅛" thick.

The rule is to increase the length of a piece by one-half its thickness. For an extremely accurate job, allow a little more than this and then file down the ends.

Point of the bend should be marked and the metal placed in the vise so that the mark comes to the edge of the stationary jaw. Always hammer toward the stationary jaw, which can take more strain. To keep the bend sharp, hammer the stock close to the vise jaws.

Silver Gate PTA

A film entitled "Man Alive" will be shown at Silver Gate School Thursday, Oct. 18 at 10 a.m.

After the film, a physician will speak to the group and answer questions. This is under the sponsorship of the American Cancer Society.

Anyone interested in viewing this program is invited. The program was arranged by the health chairmen, Mrs. Robert Brown and Mrs. Jack Warrens.

Hunters and fishermen, according to the National Automobile Club, spent nearly 87 million dollars for all types of hunting and fishing licenses, permits, tags, trout stamps, and Federal duck stamps during the fiscal year that ended June 30, 1955.

State C. of C. & AFL-CIO Support Bond Issue For California Schools

"Never before have so many state-wide groups of otherwise divergent opinion joined up as a team to keep alive California's traditional determination to give every child an equal educational opportunity."

This was the statement made public today by Arthur F. Corey, Executive Secretary of California Teachers Association, in announcing widespread support for Proposition 2 on the November ballot, which proposes a $100 million statewide bond issue to help finance badly needed classrooms throughout the state.

Endorsements after thorough study of the proposal by large state-wide groups," said Corey, "keep fresh the devotion of teachers, many of whom are working today in classrooms peopled by from 50 to 60 boys and girls, and others who are trying to give pupils a full-day's program on a half-day schedule. It is buoyant to the dedicated spirit of good teachers to have an expression of such interest as has been evidenced in California this year by the public support of Proposition 2."

Corey announced that endorsement of the proposal had been voted by almost all state groups of importance, including the California State Chamber of Commerce, California Taxpayers Association, AFL-CIO, California League of Women Voters, California Real Estate Association, California Farm Bureau Federation, California Congress of Parents and Teachers, United Ministerial Association of California, San Francisco and Los Angeles Chambers of Commerce, San Francisco Labor Council, Civic League of Improvement Clubs of San Francisco, Central Labor Council of Alameda County, California School Boards Association, California Association of Colored Women's Clubs, boards of education is most of the large cities in the state, and California Teachers Association.

"These endorsements are, of course, motivated" said Corey, "by the electric shock imparted by the startling knowledge that to provide classrooms to serve the increased enrollment between now and 1966 California must build 45,000 classrooms, or, one 12-room school every single day —Sundays and holidays included —for the next ten years."

"These startling statistics are not produced by guesswork," Corey added, "since most conservative estimates by experts of the State Department of Finance establish that ten years from now there will be a million and a half more pupils in California's schools than there are today."

Sunset View PTA

Discipline will be the program topic at the first meeting this school year of the Sunset View Elementary School PTA, according to Mrs. James Boynton, president. The meeting will take place Tuesday, Oct. 16, at 7: 30 p.m. in the school auditorium.

Mrs. Boynton announced that the speaker, Mrs. Martha McIntosh, will include in her presentation a discussion of attitudes towards discipline and the philosophies which lie behind it. Mrs. McIntosh is assistant superintendent of San Diego City Schools, in charge of elementary schools.

Mrs. Margaret Collins, coordinator at San Diego Junior College and vocational school, will also be a speaker, and will tell about Proposition 2, which deals with school bonds.

Bank Announces Achievement Awards Program

Manager Rollin E. Reed, of Bank of America's Ocean Beach branch announced today that again this year the statewide bank is offering its Achievement Awards program, under which $44,900 in cash prizes are awarded annually to outstanding California high school seniors.

Reed said approximately 560 high schools with more than 125,000 senior students enrolled are expected to participate.

In addition to 372 cash awards ranging from $25 to $1,000 there will be more than 5,000 trophies certificates and ribbons.

In the program's nine-year history, awards totaling nearly a quarter-million dollars have been made to more than 1,000 young persons. Winners may use the money for any purpose, but Reed said experience has shown that most of them defray college expenses with it.

The selection process begins with the high schools themselves in February. School winners then advance to zone competitions in April. Final judgment is held and top awards made in May.

Four major fields of study are covered: science and mathematics, fine arts, liberal arts and vocational arts.

The Peninsula News will award each week for the next 26 weeks a credit certificate worth $12.00 to each eligible winnig contestant—redeemable at any of the sponsoring advertisers whose ad is found listed on this page.

"ENJOY THE FRUITS OF LOCAL HARVEST"

You can have fun and become better acquainted with local advertisers and their ads by participating in our "BOOSTER SLOGAN" Contest. In each column can be found a "Hidden" Word — combine them and you have our slogan for this week — Write a brief paraphrase along the same theme as the slogan — it does not necessarily have to rhyme but must always lend to the advantages of local shopping.

This is the Famous Carpeting made from SOLUTION DYED Yarns Produced by the Hartford Carpet Co. in Hartford, Conn. and woven here in California---it is the best value Dollar for Dollar that we have ever had to offer. It MORE than meets the requirements of a good carpet.

1--Shows little or no tracking and furniture leg marks quickly dissappear or can be obliterated by light brushing.

2--Since the yarn is solution dyed there is no light center core to appear as wear occurs---no light paths in heavy traffic areas.

3--It is latex backed so that spilled liquids do not soak into the under pad.

4--All colors are distinctive yet blend wonderfully with other furnishings---there is a color for every decor.

ALL OF THIS QUALITY AND COMFORT CAN BE YOURS FOR ONLY . . .

$8.00

A Square Yard—laid wall to wall including a full 40-oz. waffle pad and all labor.

And if you are buying or own your own home, you can carpet as much as you like with NO Down Payment and as long as 36 months to pay.

We have carpeted over 60 Homes in the Ocean Beach - Point Loma Area with not a single complaint---So we know it's good!
